CHIEF SECRETARY,
G.G. MAY 1933

To

R. RANGA RAO Esq., B.A., B.L.,
Chief Secretary to the Government of
His Highness the Maharaja of Mysore,
~~Government Department~~ B a n g a l o r e.

SIR,

Adverting to Government Proceedings No.9984-9/

Flap Y
R3
17/3/33 -
N/2
G.G.100-26-8 dated 17th April 1928 sanctioning the proposal of the Mysore University to temporarily revive the Numismatic Research Office and the work of preparing the catalogue of coins, I ~~am~~ to state that the Registrar of the Mysore University forwarded, for opinion a Note containing a Scheme for the amalgamation of the Numismatic Research Office with the Archaeological Department, (a copy of which is herewith attached). It is stated in the Note that the Museum collection of coins, with those of the Archaeological Department and the Maharaja's College, have been put together and classified under the marginally* noted five main groups; that catalogues for 1 & 2 have been completed in two corresponding

- | | |
|-----------------------|---|
| 1. Ancient India. | parts; and that the work of catalogu- |
| 2. Mysore. | ing the remaining parts needs certain |
| 3. Mussalman India. | facilities ^{many} ~~most~~ of which are not |
| 4. Modern India. | |
| 5. Foreign Countries. | available in the Museum but could be |

found in the Archaeological Department. Regarding the location of the coin collection it is stated that it should be maintained in the University; that the Government Museum needs only a representative collection of select specimens properly exhibited in the show-cases for the education and information of the public; and that there cannot be any use for a large mass of unexhibited coins in the Museum, unless there is also a Specialist to handle them and study them. The present selection

of coins in the Museum show-cases is said to be neither scientifically good nor interestingly presented; that the Director of Horticulture had requested the Director of Archaeology to reorganise the Museum collection of coins as also the other Archaeological objects; and that the Museum show-cases should be arranged with duplicates of copper coins or electrotypes or plaster-casts of important gold and silver ones and the exhibits have to be properly presented in a correct and interesting manner.

2: The proposals are to rearrange the show-cases of coins in the Museum by the Director of Archaeology with a representative collection of specimens formed out of the duplicates of coins of ~~the~~ and of electrotypes or plaster-casts of important gold and silver coins; that the cost of getting the casts made should be borne by the Archaeological Department; ~~that~~ that all the remaining coins shall remain in the custody of the Archaeological Department.

The Scheme is said to entail little extra cost and would provide for the requirements of the Museum at Bangalore, of the University at Mysore, and also for the continuation of the catalogue and research work till now conducted in the Numismatic Research Office.

I am of opinion that if a representative collection of coins, either from among the duplicates, or by electrotypes or plaster-casts, are arranged to be exhibited in the Museum at the cost of and by the Archaeological Department, and the collection augmented as new specimens are acquired, the proposals of the Mysore University to retain ^{custody of} ~~possession of~~ the Museum collection of coins may be approved.

I have the honor to be
Sir,
Your most obedient servant,

K. C. Javaharaya
Superintendent.

*Copy of the Scheme: Submitted by the Director
of Archaeological Research in Mysore and
forwarded to the Museum by the University of Mysore*

Proposals with a detailed scheme for the amalgamation of the Numismatic Research Office with the Archaeological Department.

Work to be done:

The coins in the custody of the Numismatic Research Office consist of more than 6,000 specimens composed of three different collections viz:-

- 1) The collection of the Government Museum, Bangalore.
- 2) The collection of the Archaeological Department in Mysore.
- 3) The collection of the Maharaja's College, Mysore.

The specimens have now been put together and classified under 5 main groups viz:-

- | | |
|--------------------|-----------------------|
| 1) Ancient India | 4) Modern India |
| 2) Mysore | 5) Foreign countries. |
| 3) Mussalman India | |

Of these the catalogue ~~have~~ have been completed in two corresponding parts. ~~Three~~ Three parts have now to be prepared historical, numismatic introductions have to be written for ~~hundreds~~ hundreds of classes of coins. Casts have to be ~~illustrative~~ illustrative photographic plates prepared and the ~~work~~ has to be printed and published.

Facilities required:-

For the completion of this work some specialised facilities are needed like : a large strong safe, a steel cabinet, a chemical balance, callipers, distribution cases, coin cabinets, paleographical charts, historical and archaeological reference books etc. In addition clerical and menial help is also needed. More than any of these, a trained Numismatist is absolutely necessary. Most of these are not available in the Government Museum at Bangalore.

Facilities available in the Archaeological Department:

On the other hand the University at Mysore has nearly all these facilities. Since the Numismatic Research office collected together from various sources or obtained by purchase the facilities needed, the university at Mysore is specially equipped for conducting such work. Further, the Archaeological Department has numismatic research as one of its ordinary duties and has special facilities like the necessary books, journals etc. and also a photographic section with an experienced photographer who can be trusted to prepare the plates as instructed. The library, materials and the menial and clerical staff of the Archaeological Department would of great help in the further stages of the work. More than all, the present Director of Archaeology is a person who has made a special study of the subject and is in touch with the British Museum and other similar institutions. It would be very difficult for the Museum at Bangalore to provide for any satisfactory substitute for him. Thus if the work has to be continued at all, the only place possible is at Mysore, in the Archaeological Department.

Needs of the University and Government Museum:-

More over the location of the coin collection in the University of Mysore has become an absolute necessity since the Numismatic with reference to the original coins have become a regular part of the historical study and research conducted in the University. Not only have specimens coins have to be exhibited in the show-cases but a classified representative collection has to be maintained in the specially designed cabinets for the study of teachers and students in the University. On the other hand what Government Museum at Bangalore needs, is a representative collection of select specimens properly exhibited in the show-cases for the education and information of the public. There cannot be any use for a large mass of unexhibited coins in the ~~xxxxx~~ Museum unless there is also a specialist to handle them and study them. It has been noted that the present selection of coins shown in the Museum show-case is neither scientifically good nor interestingly presented. A few months ago the Superintendent of the Museum requested the Director of Archaeology to visit Bangalore and entirely reorganise the exhibition of the coins and other Archaeological specimens so as to make the, more educative to the public. This ~~is~~ the real need of the Government Museum at Bangalore. The Museum show-case should be rearranged with duplicates of copper coins and electrotypes ~~and~~ plaster casts of important gold and silver ones and ~~to be properly presented in a correct~~ manner.

Proposals:-

In view of the ~~facts~~ the following proposals are now made:-

1. The Numismatic Research Office shall be amalgamated with the Archaeological Department whose Director may be entrusted with the duties of completing the other parts of the catalogue of coins and of publishing all the parts in a suitable form. He may also prepare and publish research studies and memoirs on the more important of them.
2. The Government Museum, Bangalore, shall have the show-case rearranged by the Director of Archaeology with a representative collection of specimens formed out of the duplicated of coins of the baser metals and of electrotypes or plaster casts of important gold and silver coins. The cost of getting the casts prepared should be borne by the Archaeological Department.
3. All the remaining coins shall remain in the custody of the Archaeological Department where duplicates and casts of important specimens shall be exhibited in the department's show-case, a representative collection of all types shall be retained in the coins cabinets for the reference of the department and of the scholars and of the students. The rest of the collection or such portion of it as are not required for reference or study at the office may be deposited in a sealed box in the District Treasury at Mysore - at the discretion of the Director.

The scheme above proposed would by itself entail little extra cost and would provide for the requirements of the Museum at Bangalore, of the University at Mysore and also for the continuation of the cataloguing and research work till now conducted in the Numismatic Research Office.

I am of opinion ~~that the coins~~ coins, either from among ~~the existing collection~~ plaster-casts, are arranged in the Museum ~~at a~~ cost of and by the Archaeological Department. The collection augmented as new specimens are acquired ~~by the University~~ of the Mysore University to retain custody of the Museum collection of coins may be approved.

Enclosure.

Copy of the Scheme submitted by the Director of Archaeological Researches in Mysore and forwarded to the Museum by the University of Mysore.

Proposals with a detailed scheme for the amalgamation of the Numismatic Research Office with the Archaeological Department.

LX

Work to be done.

The coins in the custody of the Numismatic Research Office consist of more than 6,000 specimens composed of three different collections viz:-

- 1) The collection of the Government Museum, Bangalore
- 2) The collection of the Archaeological Department in Mysore.
- 3) The collection of the Maharaja's College, Mysore.

The specimens have now been put together and classified under 5 main groups viz:-

- | | |
|--------------------|-----------------------|
| 1) Ancient India. | 4) Modern India |
| 2) Mysore | 5) Foreign countries. |
| 3) Mussalman India | |

Of these the catalogue for Nos. 1 and 2 have been completed in two corresponding parts. The remaining three parts have now to be prepared historical and numismatic introductions have to be written for each of the hundreds of classes of coins. Casts have to be made and illustrative photographic plates prepared and the catalogue has to be printed and published.

Facilities required:-

For the completion of this work ~~several~~ facilities are needed like : ~~strong safe~~ ~~chemical~~ balance, callipers, ~~photographic~~ cal charts, ~~historical~~ etc., In addition clerical ~~staff~~ needed. ~~More than~~ any of these, a ~~trained~~ ~~person~~ is needed. Most of these are not available in the ~~present~~ Museum at Bangalore.

Facilities available in the Archaeological Department:-

On the other hand the University at Mysore has nearly all these facilities. Since the Numismatic Research Office collected together from various sources or obtained by purchase the facilities needed the University at Mysore is specially equipped for conducting such work. Further, the Archaeological Department has numismatic research as one of its ordinary duties and has special facilities like the necessary books, journals etc., and also a photographic section with an experienced photographer who can be trusted to prepare the plates as instructed. The Library, materials and the menial and clerical staff of the Archaeological Department would ^{be} of great help in the further stages of the work. More than all, the present Director of Archaeology is a person who has made a special study of the -- subject and is in touch with the British Museum and other similar institutions. It would be very difficult for the Museum at Bangalore to provide for any satisfactory substitute for him. Thus if the work has to be continued at all, the only place possible is at Mysore, in the Archaeological Department.

16

Needs of the University and Government Museum.-

moreover the location of the coin collection in the University of Mysore has become an absolute necessity since the Numismatic with reference to the original coins have become a regular part of the historical study and research conducted in the University. Not only ^{have} ~~have~~ specimens coins ~~have~~ to be exhibited in the show-cases but a classified representative collection has to be maintained in the specially designed cabinets for the study of teachers and students in the University. On the other hand what Government Museum at Bangalore needs is a representative collection of select specimens properly exhibited in the show-cases for ~~the~~ education and information of the public. There cannot be ~~such a~~ large mass of unexhibited coins ~~in the~~ ~~Government~~ ~~Museum~~ unless ~~it is~~ ~~possible~~ ~~to~~ ~~handle~~ ~~them~~ ~~and~~ ~~present~~ ~~a~~ ~~selection~~ ~~of~~ ~~coins~~ ~~which~~ ~~are~~ ~~scientifically~~ ~~good~~ ~~in~~ ~~the~~ ~~Government~~ ~~Museum~~ ~~at~~ ~~Bangalore~~ ~~and~~ ~~to~~ ~~visit~~ ~~Bangalore~~ ~~to~~ ~~see~~ ~~the~~ ~~exhibition~~ ~~of~~ ~~the~~ ~~coins~~ ~~and~~ ~~other~~ ~~Archaeological~~ ~~specimens~~ ~~so~~ ~~as~~ ~~to~~ ~~make~~ ~~them~~ ~~more~~ ~~educative~~ ~~to~~ ~~the~~ ~~public~~ ~~this~~ ~~is~~ ~~the~~ ~~real~~ ~~need~~ ~~of~~ ~~the~~ ~~Government~~ ~~Museum~~ ~~at~~ ~~Bangalore~~ ~~the~~ ~~Museum~~ ~~show-case~~ ~~should~~ ~~be~~ ~~re-arranged~~ ~~with~~ ~~duplicates~~ ~~of~~ ~~copper~~ ~~coins~~ ~~and~~ ~~electrotype~~ ~~or~~ ~~plaster~~ ~~casts~~ ~~of~~ ~~important~~ ~~gold~~ ~~and~~ ~~silver~~ ~~ones~~ ~~and~~ ~~the~~ ~~exhibits~~ ~~have~~ ~~to~~ ~~be~~ ~~properly~~ ~~presented~~ ~~in~~ ~~a~~ ~~correct~~ ~~and~~ ~~interesting~~ ~~manner~~.

Proposals:-

In view of the above facts the following proposals are now made:-

1. the Numismatic Research Office shall be amalgamated with the Archaeological Department whose Director may be entrusted with the duties of completing the other parts of the catalogue of coins and of publishing all the parts in a suitable form. He may also prepare and publish research studies and memoirs on the more important of them.

17
2. The Government Museum, Bangalore, shall have the show-case re-arranged by the Director of Archaeology with a representative collection of specimens formed out of the duplicates of coins of the baser metals and of electrotypes or plaster casts of important gold and silver coins. The cost of getting the casts prepared should be borne by the Archaeological Department.

3. All the remaining coins shall remain in the custody of the Archaeological Department where duplicates and casts of important specimens shall be exhibited in the department's show-case, a representative collection of all types shall be retained in the coin cabinets for the reference of the department and of the scholars and of the students. The rest of the ~~collection~~ or such portion of it as are not ~~needed~~ for reference ~~may~~ be deposited in ~~the~~ ~~at the discretion~~

The scheme ~~itself~~ ~~little~~ extra cost and would ~~be~~ ~~at~~ Bangalore, of the University also for the continuation of the cataloguing and research ~~now~~ conducted in the Numismatic Research Office.
